Enhancing the capacities of Research Support and KTO/TTO offices

In line with

European Research Area Policy Agenda Action no. 17 objectives:

- 1) Upskilling: improve the training and skills development of research management staff;
- 2) Recognition: contribute to professionalisation of the continuously evolving, multifaceted role of the research management profession across the ERA;
- 3) Networking: supporting the networking of research managers and the exchange of best practices through cross-border networks in different dimensions of research management;
- 4) Capacity Building: strengthen research management capacity across the ERA, particularly supporting organizations in regions with lower research and innovation intensity.

Scientific panel and keywords

Scientific panel: Economic sciences

Level 1 keywords: Economic development

Level 2 keywords: competitiveness, innovation, research
and development

Additional descriptors should be chosen according to the preferences and needs of the consortium partners

What UNIBL offers?

Secondments for KTO/TTO staff for commercialization and patenting process in collaboration with Digital Innovation Hub ONEX (potential partner in consortia?)

Secondments for RMAs for different scientific panels (chemistry; economic; agriculture and forestry – focus on bioeconomy)

Thank you for your attention!
